MD9DM1 Combination Television/DVD

Technology and Benefits

VIDEO

Bi-Lingual Onscreen Display

Allows viewer to read menu in two different languages (English and Spanish) to ensure user-friendly programming.

Front Game Switch

Easily switch between TV and front inputs.

V-Chip

All Toshiba televisions comply with current V-Chip regulations. Violent or sexually explicit programming can be identified and blocked, prohibiting viewing by young children.

181 Channel Tuner

Provides access to all channels on unscrambled cable systems.

CONVENIENCE

Headphone Jack

For a private viewing, particularly useful with AC/DC models which are likely to be used in confined areas such as automobiles.

360 Minute On/Off Timer

Use the on timer as an alarm clock to wake up to your favorite movie. Or have the set turn off automatically when viewing in the evening.

Front A/V Inputs

Allows easy connection of camcorder or video game directly to the front of the set.

Auto Play

DVD Play automatically begins when a DVD is placed in the machine.

Auto Repeat

DVD will restart and begin play after initial play is complete.
